+ for club

- Protection of player value = the club's investment

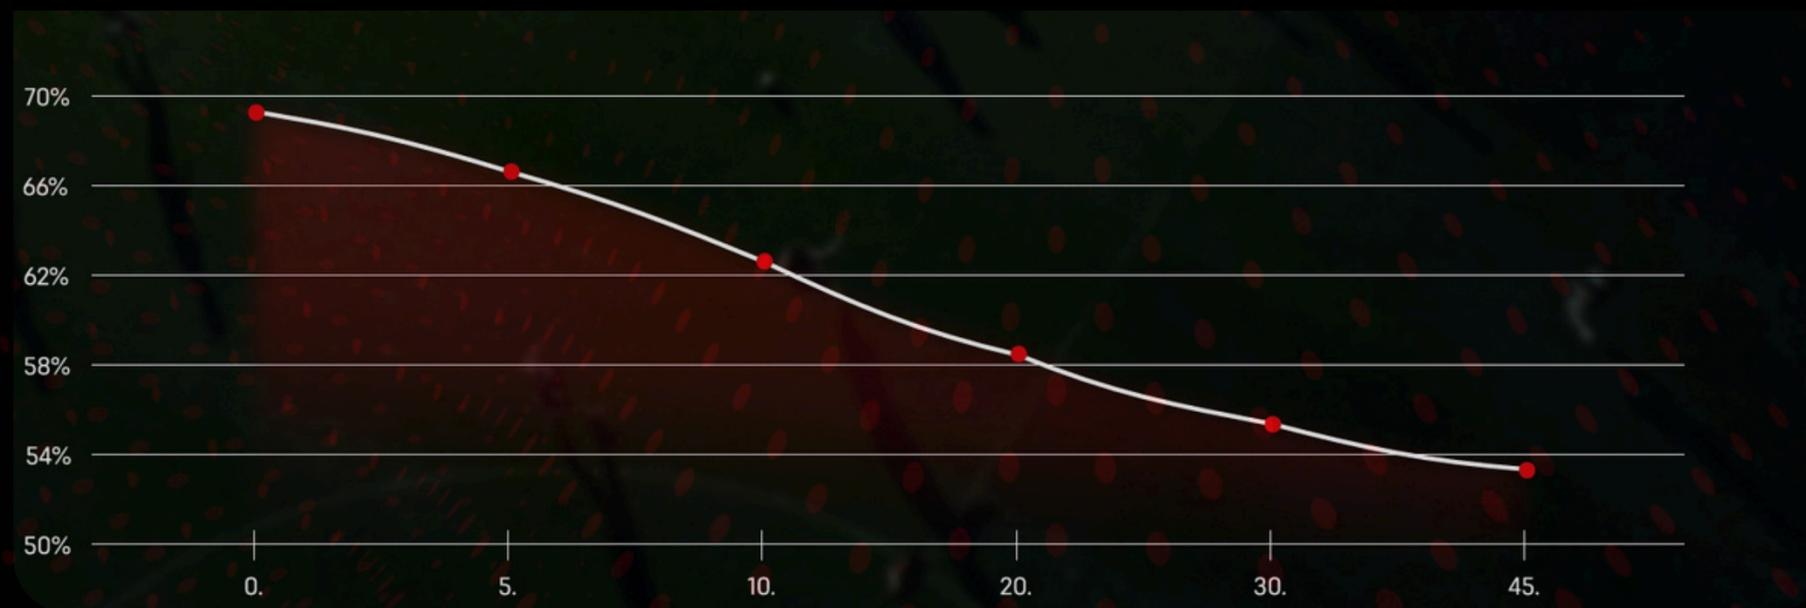

HOTBOOTS

Values measured in the boot at the 45th minute

Moisture values in the boot

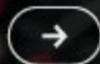

How do Hotboots work?

Our heating technology uses graphene smart-textiles powered wirelessly by a powerful power bank

+ Graphene **INFRA** radiation (PHYSIO):

- Graphene INFRA radiation (PHYSIO):
- Consistent wavelength with the human body
- Improves blood circulation
- Reduces muscle fatigue
- Penetrates the skin structure - reaching tendons and ligaments
- Rapid heating
- Precise regulation - 3 heating levels

The set for teams includes:

- 12x Hotboots with club ID
- 12x power banks
- Charging station
- 2x portable bags

Are you interested in the Hotboots solution?

We're glad. We can have a call, exchange emails, or even meet in person.
